

**REMARKS**

The Office Action of October 11, 2005, allowed claims 1-20 and objected to claim 21. In particular, claim 21 was rejected for an informality in which the examiner noted that the word "energy" would be more appropriate than "en rgy" in line 6.

In response to this claim objection, claim 21 has been amended by this paper to recite the word "energy." Although this claim amendment has been presented by this paper, Applicant notes that the file copy maintained by its patent counsel does not include the informality identified in the office action. Thus, Applicant authorizes the Examiner to enter an examiner's amendment, if necessary, to replace any instance of "en rgy" with "energy" as necessary.

In addition, the formal drawings are submitted herewith.

In the event that the Examiner finds remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney.

Dated this 31 day of October, 2005.

Respectfully submitted,
